"Our pursuit for a more sustainable future that meets the needs of a greener planet and its people continues..

Bharat Forge has been addressing the topic of sustainability through the solutions that we provide to our customers. As a responsible corporate, we envisage doing more when it comes to the reduced and responsible use of resource.

I am very happy to share that we have performed the life cycle assessment for Forged steel products manufactured in Bharat Forge Kilsta AB, Sweden and got the Environment Product Declaration (EPD) registered.

Another milestone in our efforts to demonstrate the commitment towards a greener and sustainable future."
