Project - Skill Development

Center of Excellence at Baramati

- We have established CoE (Center of Excellence) at Baramati, having different labs like IoT (Internet of things) lab, AI (Artificial Intelligence) lab, DA (Data Analytics) lab & Robotics lab.
- Two groups have successfully completed the project by utilizing these facilities.
 - One group has created the **Hand Gesture Controlled Wheelchair** :Which will be useful for physically challenged people to move from one place to another by the movement of their hands.
 - Another group had created **An Autonomous Robot** which can navigate from one place to another. Such robots can be used for contactless delivery of any product (like medicine)
- One of the groups have filed copyright for their idea : “**Smart Helmet Detection System**” and their product is in development phase.
