bharatforge

“

The society has contributed so much to our growth over the last 60 years. We, in return should contribute for its betterment.

”

At Bharat Forge,

we are committed to sustainability and believe in making a positive impact on our ecosystem and society. As a responsible corporate, we prioritize the well-being of future generations and strive to create a healthy planet for them.

In order to accomplish this objective, we have seamlessly integrated our Corporate Social Responsibility (CSR) endeavors with Environmental, Social, and Governance (ESG) initiatives. We are presently engaged in proactive efforts within 100 rural communities, centering our attention on five pivotal areas that align with the United Nations’ Sustainable Development Goals (SDGs): the provision of potable water and agricultural support, Enhancement of healthcare services, advancement of education, improvement of internal infrastructure, and creation of sustainable livelihood opportunities.

In line with the essence of CSR law, we emphasis village development as a means of inclusive growth. We believe that self-sufficient villages, with circular economies, effective waste management, access to water resources, and green energy solutions, hold the key to holistic development in nation.

With over eight years of dedication to village development, our focus now lies in transforming these villages into sustainable Green Villages, showcasing our unwavering commitment to environmental responsibility. Capacity building of our partners through training programs is also a part of our other CSR projects in education, skill development, women empowerment, and sports, which are beneficial for the development of our society. Our efforts benefit villagers, women, children, youth, NGOs, nearby communities, and local governance. At Bharat Forge, our top priority is ensuring the comprehensive development of all our stakeholders.

ENCOURAGE
EMPOWER
ENRICH

“

Be the change

you wish to see in the world and watch
as the world around you transforms

”

There is a proverb -

“Give a man a fish, and you feed him for a day. teach a man to fish, and you feed him for a lifetime.” It is more worthwhile to teach someone to do something.

This is probably the basis of sustainable initiatives and the essence of CSR projects. The CSR Act also insists that CSR must be done in a 'project format'. The projects must have long-term and short-term objectives, and to sustain the project, the involvement of all stakeholders is a basic prerequisite. When Bharat Forge works for the villages, we insist that the involvement of local governance, villagers, and their committees must play a significant role in it.

I remember many such incidents where the villagers had played an active role in monitoring the water, road, and pipeline projects day and night. For health camps, along with our CSR team, ASHA Health workers, primary healthcare centers, sarpanch, and other committee members played an active role in organizing the health camps.

Bharat Forge encourages stakeholder involvement in CSR projects for sustainable development. Ownership fosters preservation and sets a role model for the next generation. We strive to make people independent by promoting cooperation and assistance, rather than relying on external help. We're transforming villages into Green Villages for sustainable development by planting over **100,000 trees**, conserving 2207 TCM of water, generating 155.97 KW of renewable energy, and organizing a 'Swachha Sundar Gaon Competition.' We're also making some urban societies into Green Societies with composter planters to convert waste into manure.

Bharat Forge, being a catalyst in the process of village development and other areas like education, health, skill development, women empowerment, and sports, could impact/reach out to more than **2,13,000 lives** positively.

By understanding the spirit behind the CSR Law, Bharat Forge has been consistently marching ahead by connecting CSR and ESG, by building the capacities of our stakeholders, i.e., farmers, women self-help groups through trainings, NGO meets, and by skill development and educational programs for thousands of children and youth.

We would like to create various avenues for sustainable development by making people independent.

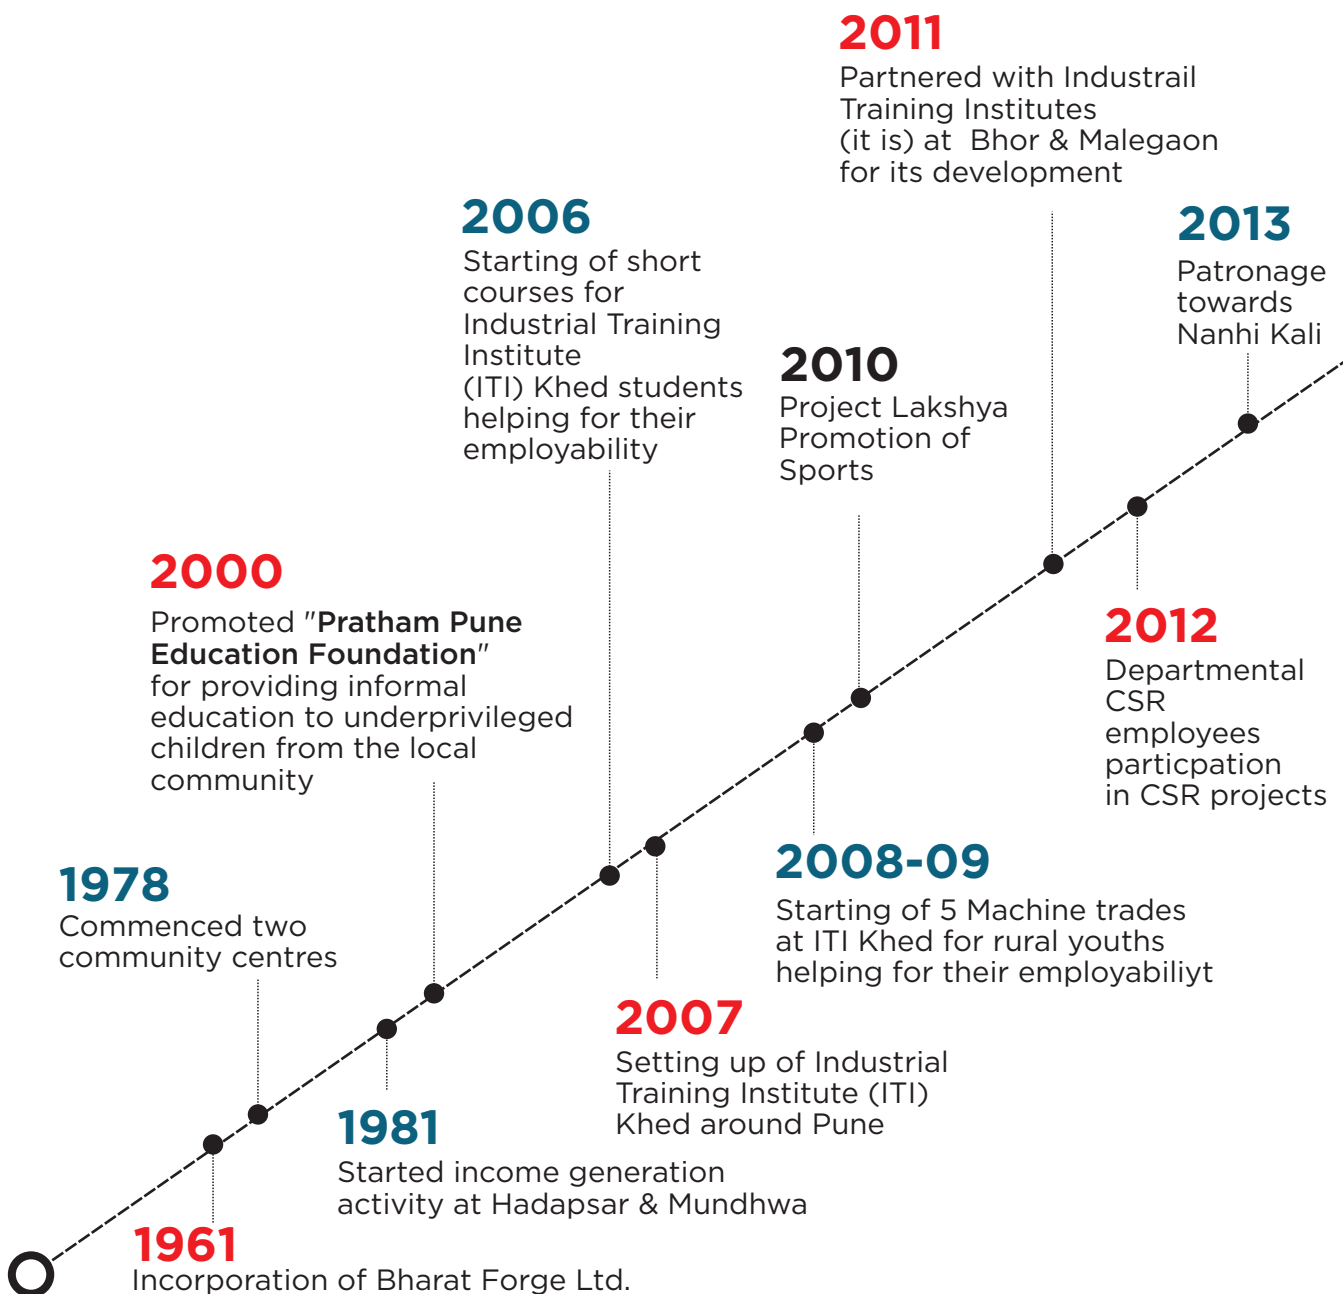

Dr. Leena Deshpande

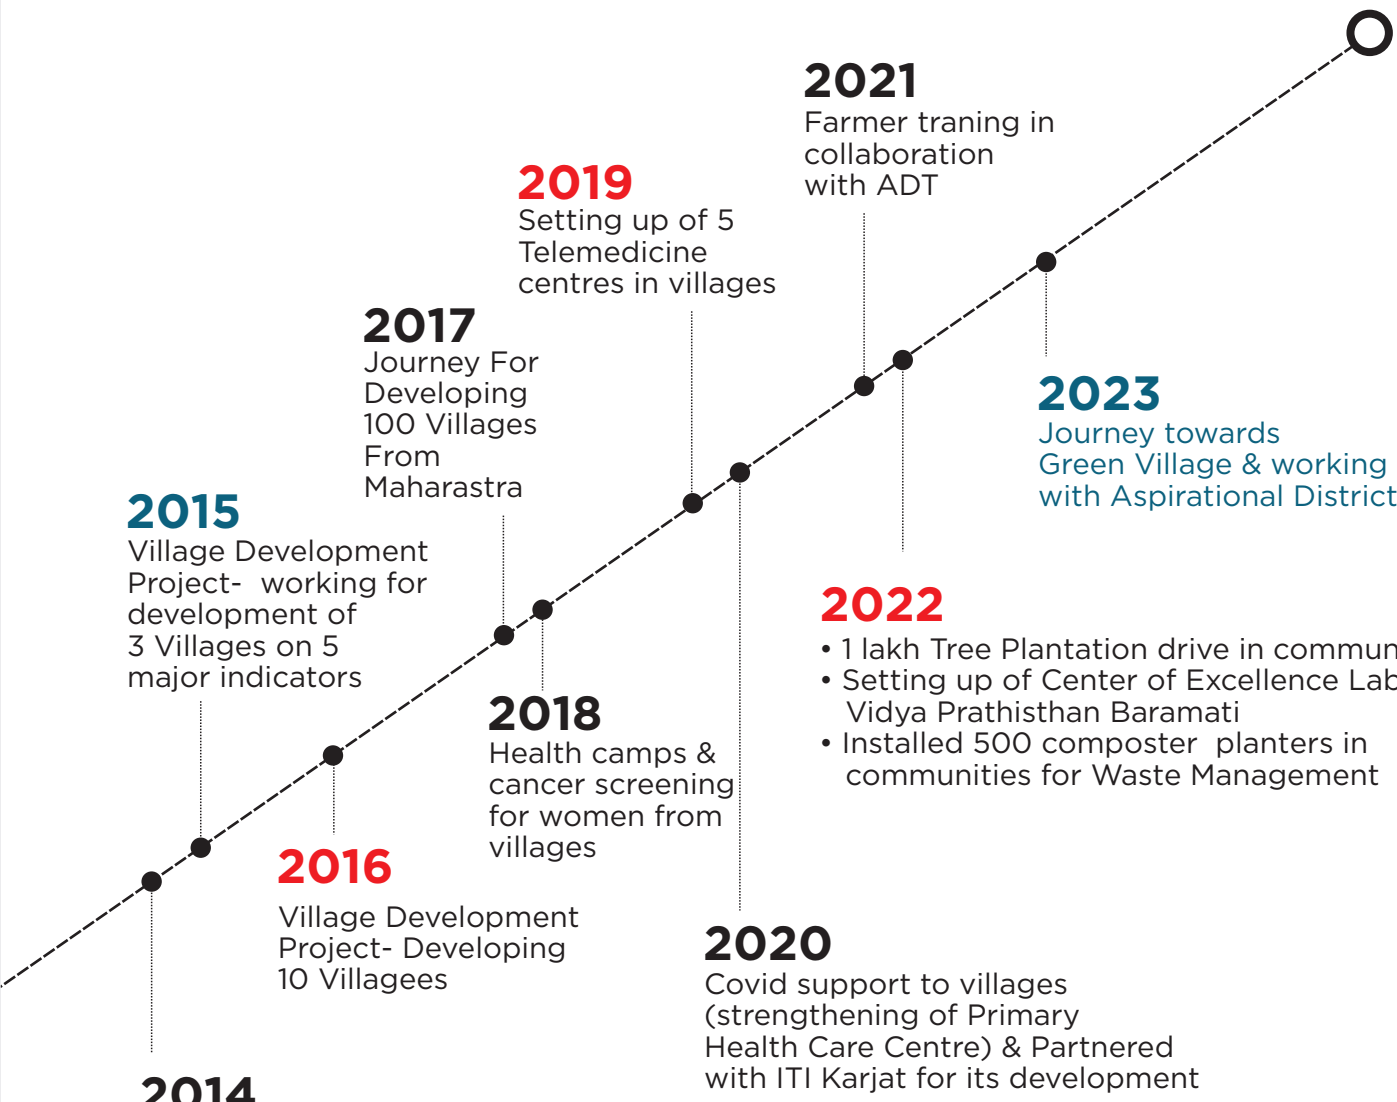

Head, Corporate Social Responsibility

Bharat Forge

CSR JOURNEY

SINCE 1978

2015

Village Development Project- working for development of 3 Villages on 5 major indicators

2016

Mr. Pratap Pawar
CSR Committee Chairman

CSR Board Committee

The CSR Committee of Bharat Forge is lead by the eminent & visionary leaders,

Shri B N Kalyani (Chairman & Managing Director)

Shri Amit Kalyani (Joint Managing Director)

Shri Pratap Pawar (CSR Committee Chairman)

Dr. Leena Deshpande (Head - CSR)

who are guiding our development projects with their valuable experience and insights.

This prestigious committee of such knowledgeable personalities is a great advantage to Bharat Forge and has enabled us to widen our focus to reach more communities and impart growth opportunities to every last person of the target villages.

**WE BELIEVE IN
HUMAN
ENGINEERING**

Business is not just about great products or great deals, it's about human relationships.

Inside every problem lies an opportunity to find great solutions. It is important to address such problems with great understanding. Thus, all our initiatives begin with a heart to heart communication with the villagers and local leaders. We spend time with them to understand and find the root cause of their problems.

First step towards change is awareness. Next is acceptance. Change is a way of life and we ensure that the changes or improvements we make are accepted by the concerned people, so that they are able to utilize the projects after the handover. This in turn, helps in ensuring efficiency, self-sustainability and adequate maintenance. Just like a plant needs water, an idea needs propagation. When people benefit from our initiatives they don't just talk about it, they also discuss about it with other people and communities. This gives us more opportunities to undertake projects in different villages for the benefit of more people.

Our development projects are designed to meet the needs of the current times. For instance, underprivileged girls from our target villages are educated in emerging topics such as Artificial Intelligence, Internet of Things (IoT), and much more. Along with capacity building of our partners in the development process, we also focus on making the local leaders stronger. We train them in leadership skills, communication and problem solving. This ensures that our villages become more independent, informed and self-reliant.

Co-relation between man and machine has enhanced. Tools such as strategies, planning and budgets are very helpful for streamlining work schedules, however **'SCIENCE OF UNDERSTANDING'** makes a big difference. At Bharat Forge, we call it **Human Engineering**, which accounts for the strengths and weaknesses of humans during the design of interactive products to ensure efficiency and safety by reducing the risk of user error.

Seamless Project Handover

With the official handover of the project, we secure its continued use and maintenance for a prosperous future.

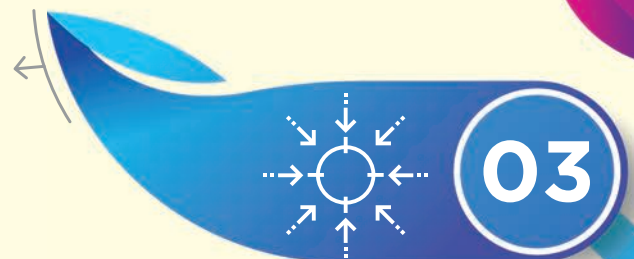

Commencing Groundwork

Executing the Project through Effective Cross-Functional Collaboration

Goal Setting

We create a roadmap of annual goals and then begin the groundwork.

Village Development

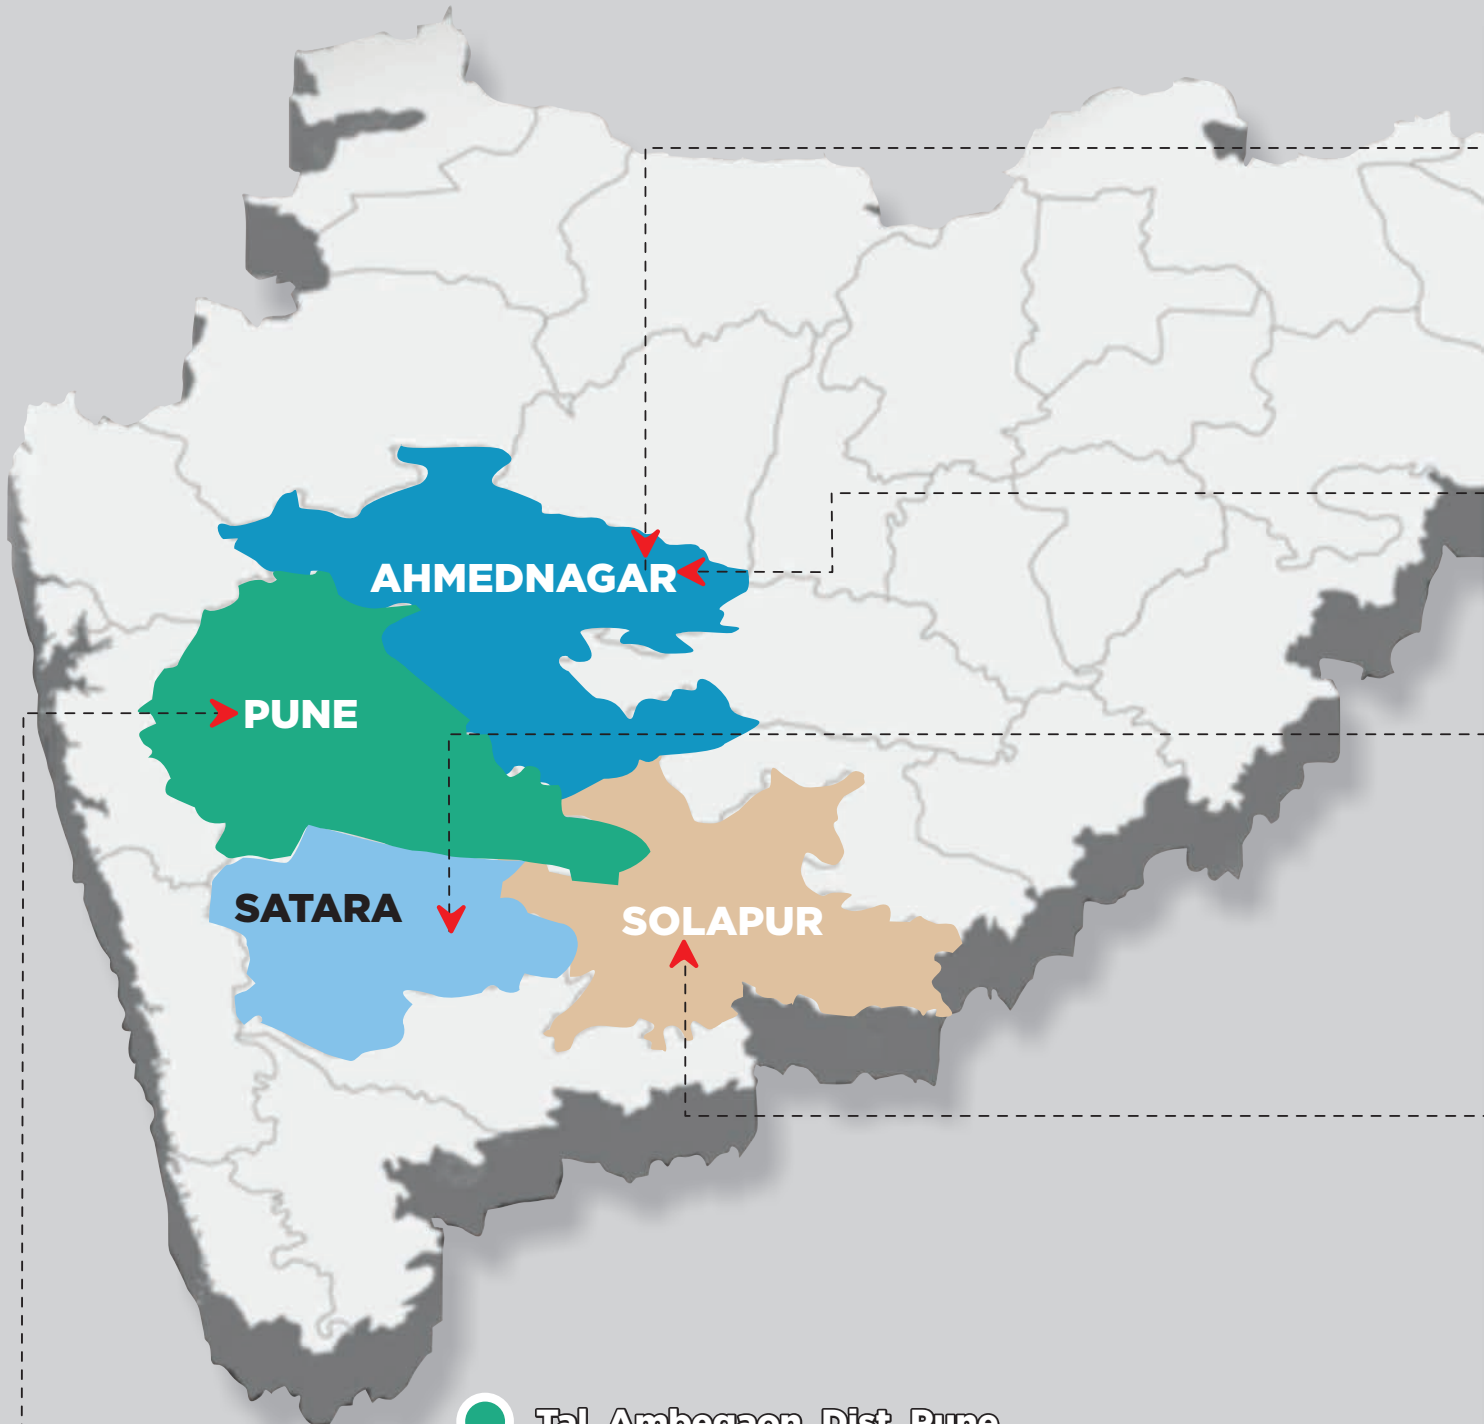

Cultivating Villages:
Our aim is to foster the development of **100** villages in Maharashtra.

Bharat Forge launched its Flagship Program, which aims to uplift 100 villages in Maharashtra by fulfilling their basic human needs and promoting sustainable development. This program encompasses multiple projects focusing on various domains, including

- ▶ Sustainable development
- ▶ Building a strong foundation of environmental, social, and governance pillars
- ▶ Providing clean drinking water
- ▶ Applying technology
- ▶ Improving sanitation
- ▶ Enhancing the yield of farmers
- ▶ Creating livelihood opportunities
- ▶ Promoting self-reliance
- ▶ Improving health and nutrition
- ▶ Promoting education
- ▶ Raising awareness

The program also empowers local leaders and partners to take charge of the projects and expand their positive impact on the overall living standards of rural communities. Ultimately, Bharat Forge is strengthening the fundamental building blocks of the nation: Our villages.

ACCESSIBILITY

CHAMBLI VILLAGE

‘Lokarpan Sohala’ of Internal concrete road at village Chambali .

This road was an entry point to the village and initially it was in bad condition. Villagers used to face great difficulty especially in rainy season. Constructed Internal Concrete road at village Chambali **Measurement : 980 ft*12 ft**

PATHARWADI VILLAGE

'Lokarpan Sohala' of Internal concrete road at village Patharwadi. This road work was important as it was connecting to the main road. Initially it was in bad condition and had become accident prone area. Constructed Internal Concrete road at village Patharwadi **Measurement : 1150 ft*12 ft**

 **PURANDAR, PUNE**

APSHINGE VILLAGE

Underground gutters constructed at Apshinge village. Measurement:1,650 Mtrs length and 69 no. of chambers This work will benefit to 6,200 villagers in terms of quality of life and improved health status. It will also help to maintain cleanliness in the village.

 **KOREGAON, PUNE**

Internal concrete roads at Targaon village
Measurement:1,300 Mtrs length*3 Mtrs width

For clean, hygienic surrounding and to prevent health issues due to mosquito menace, we have constructed 1,960 Mtrs. long internal roads at village Targaon

VISAPUR VILLAGE

Underground gutters have been constructed in Visapur village, with a total length of 1,920 meters and 88 chambers.

KOREGAON & KHATAV

SHRIDHON VILLAGE

Construction of underground gutters.
Measurement: 1,750 Mtrs length and 98 no. of chambers
The construction of underground gutters not only make the villages clean and hygienic but also helps to make wider roads.

RAJEWADI VILLAGE

Constructed Internal Concrete road at village Rajewadi.
Measurement: 450 mtrs*12 ft. 'Lokarpan Sohala' of Internal concrete road at village Rajewadi. This construction work was essential, as it was the entrance road and was initially in bad condition.

Journey towards green village

Green Village is the concept where we focus on Sustainable Development of the village. To achieve that goal one has to work on all aspects of development which includes working with People, strive for Economic Prosperity, working for Peace, Partnering with different stakeholders, and Protecting the Planet. Green Village ensures Low carbon footprint, High green cover, Livestock management, Self-reliant society, Community level social regulation.

We have approached IGBC (Indian Green Building Council) - CII and NIRD (National Institute of Rural Development) at Hyderabad to develop more understanding on Green Village. Accordingly based on the criteria of green villages we reviewed few villages where we are working from last few years and in first phase 6 villages have been identified for pilot run.

Construction of Internal Gutters and Tree Plantation

ESG connect with CSR

Sustainable practices are of paramount importance when it comes to making a positive impact on society, and ESG (Environmental, Social, and Governance) plays a vital role in achieving this. As a responsible corporate, we place great emphasis on our CSR (Corporate Social Responsibility) projects, which form the social pillar of ESG. Through these initiatives, we are actively working towards safeguarding the environment and aspire to attain water neutrality and carbon neutrality in the future.

"ESG - CSR BEST PRACTICES EXHIBITION"

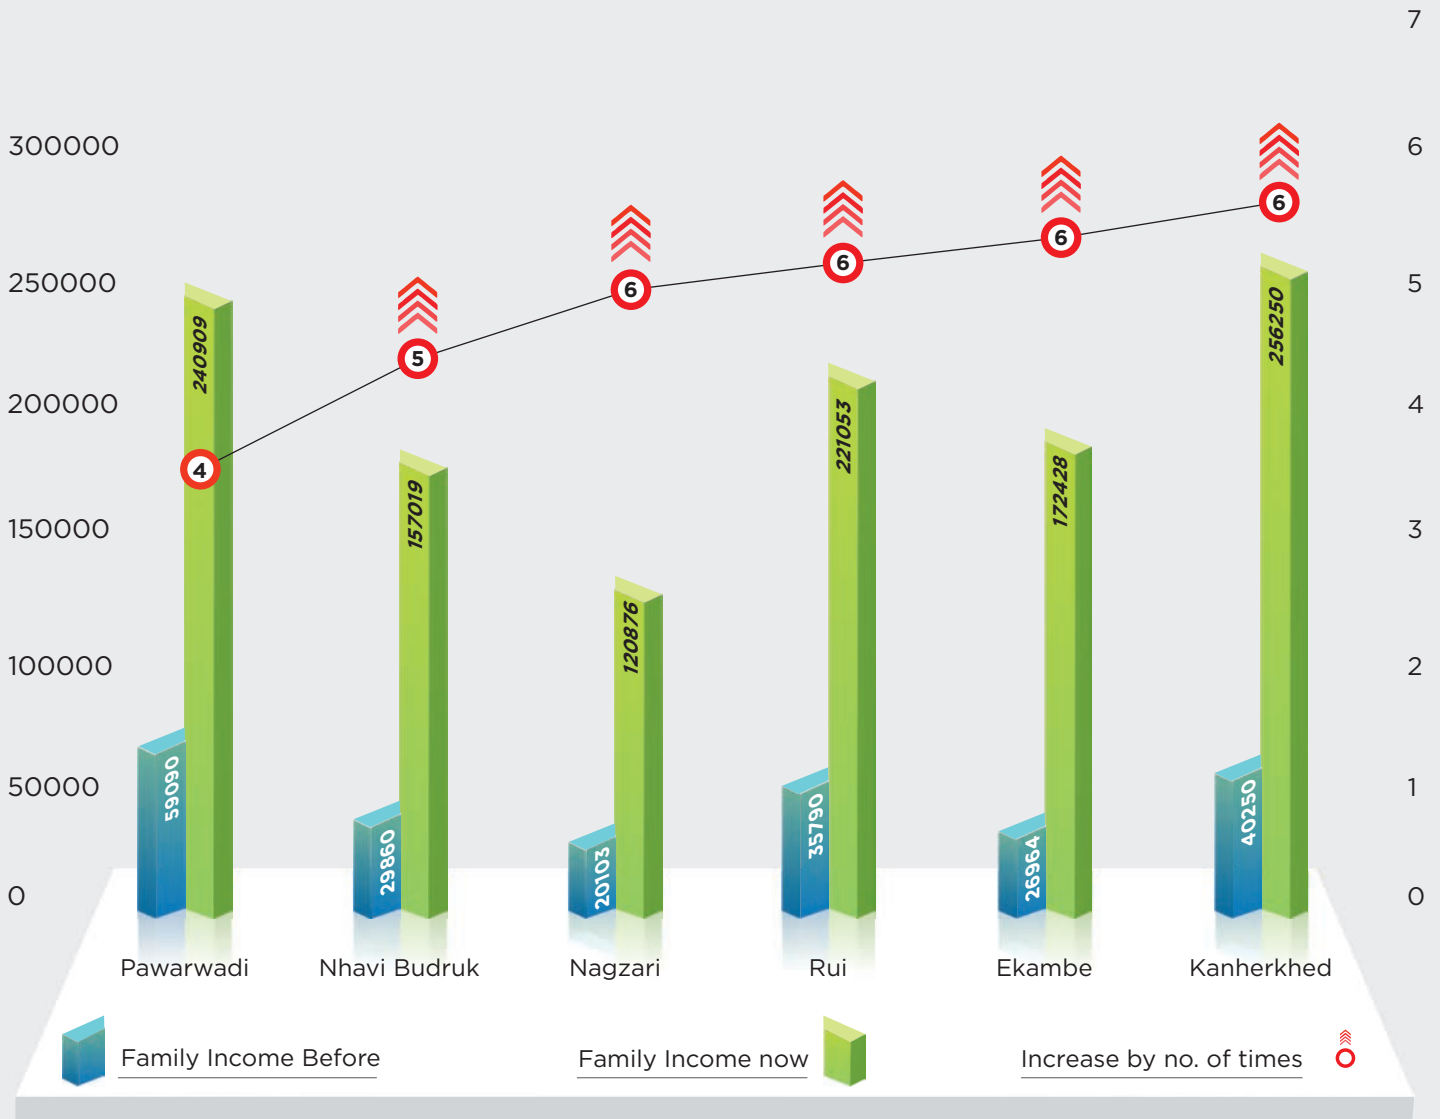

'Benchmarking the best practices'

Bharat Forge's "Village Development Project" was recognized as the top CSR Project and selected to be presented at the "ESG - CSR Best Practices Exhibition." The event took place on June 12, 2022, at IICA's Manesar Campus, Haryana. The exhibition was organized by the Indian Institute of Corporate Affairs in collaboration with NITI Aayog, Department of Public Enterprises, and UNICEF India. Out of 50 companies, 27 were shortlisted to showcase their projects at the event. The inauguration was done by Shri. Rajesh Verma, Secretary of the Ministry of Corporate Affairs, along with other prominent figures from various organizations, including IICA, UNICEF India, and the Ministry of Corporate Affairs. During the event, a book titled "Benchmarking ESG & CSR" was released by the Secretary of Corporate Affairs, featuring case studies on sustainable development projects, including Bharat Forge's case study. Bharat Forge's CSR work received high praise from the ministers of Corporate Affairs and other organizations present at the event.

CSR projects presentation by Sapna Gadh, Jaydeep Lad and Shobha Ronimath to Shri. Rajesh Verma- Secretary Ministry of Corporate Affairs & IICA officials

Impact of water conservation work on the overall income of the villagers impacting their livelihood

Apart from Environmental work, we are also catering the 'Social' pillar of ESG through various projects which includes Health, Education, Livelihood, Women empowerment. We are running 7 telemedicine center in order to get the primary health access for villagers. also conducted cancer screening camps for women in overall we could reach around 13,000 people through the health initiative. Supporting for the basic infrastructure of schools also comes under our priority areas of intervention. We are working with more than 14,000 children for their informal education which belongs to slum communities. Also mentoring the girls who are pursuing engineering or diploma and are from rural background.

Under Women empowerment we have created the Self-help groups at Hadapsar, Keshavnagar and Vadgaonsheri communities from pune. We help them by providing different trainings, entrepreneurial opportunities, exposure visits for making them self-sufficient.

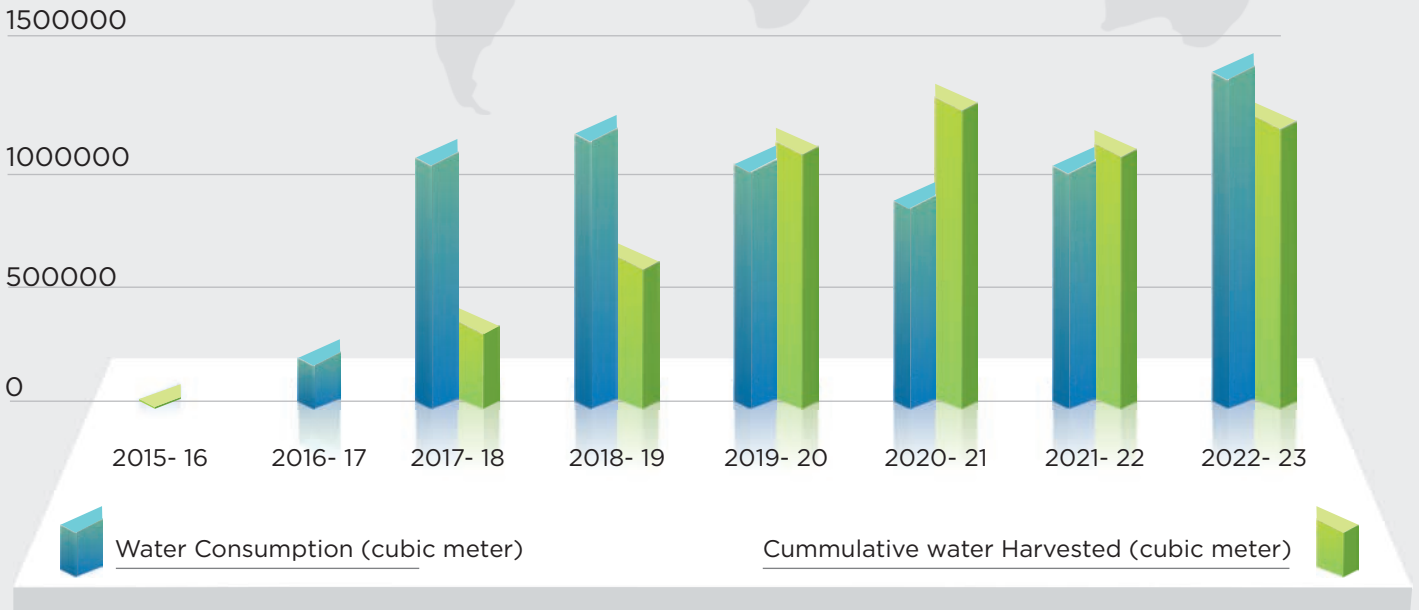

For environmental sustainability, last year we have planted more than 1 lakh trees in the villages where we are working under village development projects and these plants have the survival rate of more than 90 %. The same year Renewable Energy Infrastructure of 160.5 KW has been created. Under waste management with community's involvement we are working with 500 families in Hadapsar region (Pune). Converting the kitchen waste and garden waste into the manure is the objective of the project. In a year around 1800 tons of load of waste will get consumed and 18 tons of manure will get generated. We have also created water storage capacity of 3,27,600 m³ by creating and repairing different water harvesting structure along with disiltation work.

Our organization's water conservation and consumption graph indicates progress towards positivity and future water surplus.

Chart Area

Water Consumption In KL Vs Water Harvested In KL

Water Consumption And Water Harvested Graph

WASTE MANAGEMENT

'Clean & Green Environment'

‘माझा कचरा माझी जबाबदारी’

Expanding the projects in order to reach **500 families** of Hadapsar region where each family is provided with **1 Composter Planter** which can convert **1 KG** of everyday kitchen waste into manure. This initiative will convert **500Kg** of daily kitchen waste into manure and hence in one year around **180 Tons** of load of waste will be reduced from PMC and around **18 tons** of manure will get generated. The project started from PMC Regional Office, We have installed **500 Composter Planters** (CP) in different areas of Hadapsar, Pune.

Community Development

Empowering Individuals to create more inclusive, equitable, and sustainable future for all.

At Bharat Forge, we believe that empowering women is essential for creating and cultivating the future we desire. The Community Development program is rooted in this belief and is dedicated to empowering underprivileged women by offering vocational training, business enterprise support, and other resources that encourage entrepreneurship.

SELF-HELP GROUPS FOCUSED ON WOMEN'S EMPOWERMENT.

Establishment of self-help groups is to enhance their skills and acquire vocational training, enabling them to generate income for their families.

Education

Unlocking a World of Knowledge

At Bharat Forge, we believe that Education is the movement from darkness to light and the foundation of a better future. Hence, we developed our Education Programme which aims at imparting essential knowledge and skills to underprivileged children through group activities, knowledge sharing and so on. It involves three facets,

- ▶ **PRATHAM PUNE** - It provides non-formal education to children from 130 underprivileged communities.
 - ▶ **PRADNYA VIKAS** - Children from the Pratham communities who display promising potential are provided more specialised education in this venture.
 - ▶ **ANUBHAV SHALA (KHELGAR)** - The facet of the education programme is run in collaboration with jnana Prabodhini for children from slum communities whose parents are unable to supervise them due to work commitments.
-

The earth reveals its innocence through the smiles of children.

Skill Development

The Ultimate Catalyst for Empowerment and Self-Sufficiency

Skill development is a powerful force that can completely eliminate widespread unemployment. In line with this belief, Bharat Forge has forged partnerships with four Industrial Training Institutes (ITI) to launch impactful skill development initiatives for underprivileged youth.

This program empowers individuals, particularly those from rural areas, with a diverse range of vocational skills, greatly boosting their prospects for securing employment. As a result, this remarkable initiative has transformed the careers of over three thousand students.

Skill Development Initiative of Bharat Forge

Bharat Forge is a Industry partner with 4 ITI (Industrial Training Institute) at Bhor, Khed, Malegaon & Karjat for its development & providing vocational skills to rural youth for their employment.

Bharat Forge had setup an ITI at Khed in 2007-08 and recently, in 2022, handed it over to the Government of Maharashtra after working for more than one and a half decades. Mr. Yogesh Patil-Joint Director-DVET Office, Mumbai, Mr. Chandrakant Ninale-Joint Director-Regional Office Pune, ITI Khed Staff & BFL IMC Committee Members were present.

CENTRE OF EXCELLENCE FOR YOUTH DEVELOPMENT

(Focusing on Women Empowerment)

CoE consists of four labs and an incubation centre. Different labs include Robotics lab, AI (Artificial Intelligence) lab, Data Analytics lab and IoT (Internet of Things) lab. This centre has other facilities too which are 3D printing facility, Dark room, AR (Augmented Reality) & VR (Virtual Reality). Through these facilities the new-edge technology skills will be imparted to the students who are from engineering background and ensuring for maximum participation of girl students. In total there are **34** projects and **161** students. Out of which **89 are girls** and **72 are boys**.

Robotics Lab

The Robotics Laboratory at CoE is a facility for robotics research and education with an emphasis on studying Humanoid Robots, Automotive Systems, Locomotive & Manipulation, Kinematic and Mechanics, Animatronics, Drones, and Automation Systems.

CV - Computer Vision

Computer vision is the study of machines that can see and extract information from various types of image data, including video sequences and medical scans. Students will use programming languages like C++, Python, and MATLAB to build projects that involve capturing real-world data and processing it using techniques like SLAM, LIDAR, and optics.

Sports Initiatives

Strong bodies, Strong minds

Bharat Forge is deeply committed to overall development as a core value. The company recognizes that sports can cultivate crucial skills necessary for leading an ethical and socially-just life while promoting personal growth. It is our mission to extend the positive impact of sports to as many people as possible. Unfortunately, many athletes are unable to sustain their participation in sports due to a lack of specialized guidance and resources. To address this issue, Bharat Forge aims to support and mentor underprivileged sports talents.

Employee Volunteeringism

The Culture of Giving

At Bharat Forge, every employee believes that there is no greater joy or reward than having a significant impact on someone's life. Additionally, they take great pride in their contributions to the progress of our society. This compassionate mindset, empowers its employees to actively participate in various initiatives.

DAAN UTSAV 2022

Volunteering to make a difference in our society!

Bharat Forge, driven by the value of spreading happiness through sharing, demonstrates its commitment each year by encouraging employees to voluntarily collaborate with multiple NGOs. This partnership aims to provide groceries and essential items as needed.

Provided Essentials to below NGO's

- ◆ **Shirdi Sai Baba home for the aged blind women:**

is working for visually impaired aged women since last 50 years

- ◆ **Sevadam Vriddhashram**

is an old age home, situated at Donaje - Sinhgad road . It works for the old age people. The institution was started in 1995 by Mrs Pratibha Paygude .

- ◆ **Savali Association**

Savali Association works for mentally challenged & the children who suffers from cerebral palsy. Mr. Vasant Thakar runs this institution for the past 30 years.

Bharatiya Samaj Seva Kendra (BSSK) was founded in Pune in 1979, to offer care and protection to vulnerable orphan, and destitute children.

Mahila Seva Mandal was founded in December 1940 by Ms. Cathrine Davis .It provides shelter to destitute women & works for their rehabilitation.

Award & Recognition

Best CSR Project of the Year Award 2023

Bharat forge limited received the "Best CSR Project of the Year Award 2023" by UBS Forum in the 7th Edition of CSR Awards, held on 14th March 2023 at ITC Grand Maratha, Mumbai. We're grateful for this recognition and thank our team and partners for their dedicated efforts.

Amity CSR Award

Bharat forge was declared the winner of the prestigious "Amity CSR Award", 2022 in the Manufacturing sector Category on October 29th, 2022. We were declared winners amongst 54 companies that participated. This award was given at Amity Global Business School, Pune.

Embrace progress for a **BRIGHTER FUTURE**

At Bharat Forge, we firmly believe that persistent efforts are the key to initiating change and development. Therefore, we are dedicated to deepening our positive influence on society by further advancing our projects in 100 targeted villages. Our focus lies on promoting environmental sustainability through initiatives such as Tree Plantation, Waste Management, Solar Lamps, and more.

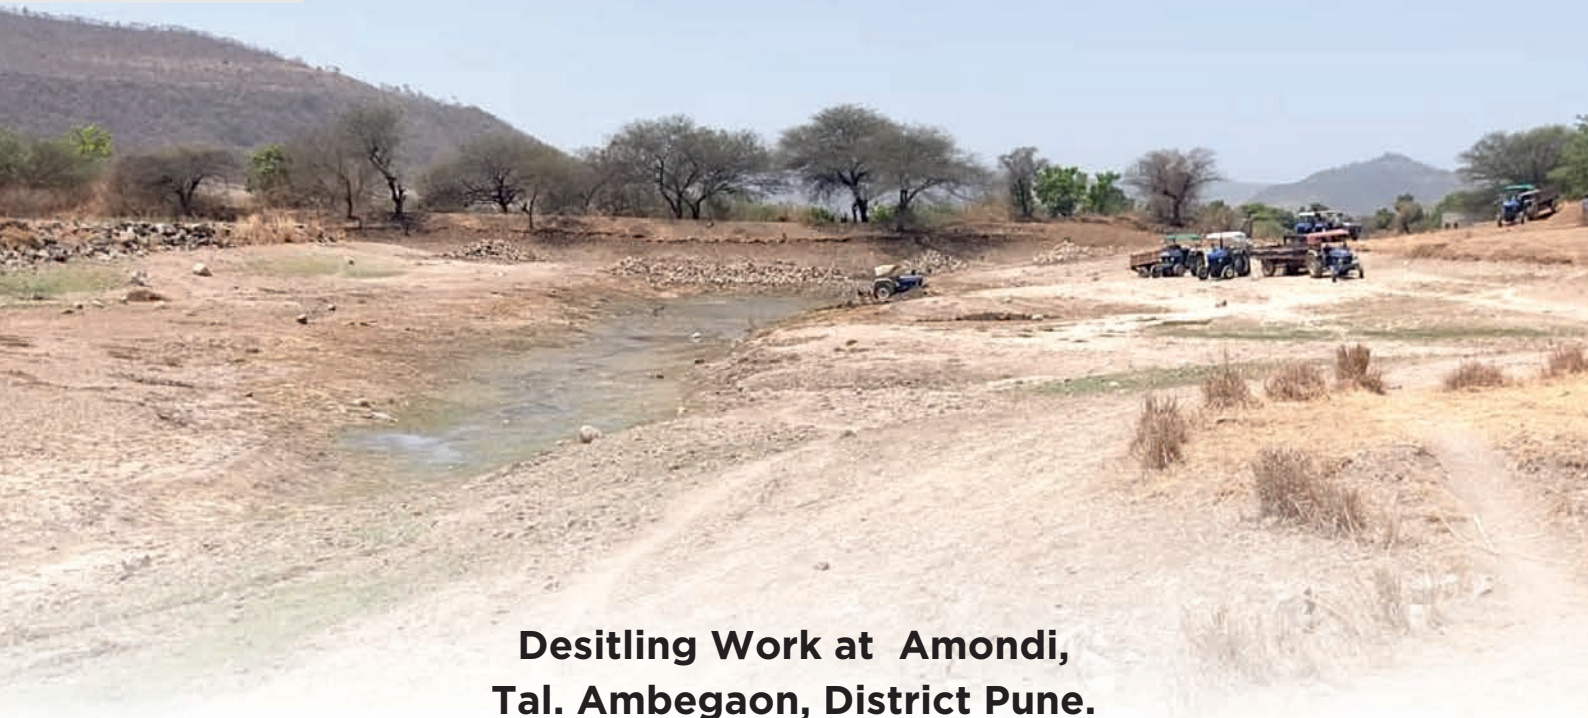

Additionally, we strongly emphasize empowering farmers by establishing an Agriculture Development Trust, which will provide them with innovative and optimized agricultural techniques.

Moreover, to foster equality in our society, we concentrate on empowering women through an inclusive project in collaboration with Vidya Pratishtan, which specifically aims to support female engineering students from rural areas. With these objectives in mind, our ultimate goal is to create a more profound and meaningful impact on society.

SUCCESS STORIES

BFL's Contribution towards Village Development

Desilting Work at Amondi, Tal. Ambegaon, District Pune.

In this village there was a old soil dam had its water storage capacity reduced due to the accumulation of silt carried by the rains over the years. The dam's structure was also deteriorating.

In response to requests of the villagers and requirement of the village the restoration, excavation, and repair of this dam were undertaken as part of a rural development project in the year 2022-23. Previously, the dam could store water up to 17 cubic meters, but now it can hold water up to 43 cubic meters.

This increased capacity benefits approximately 100 hectares of land, providing direct and indirect advantages to around 75 families in the village.

 **AMBEGAON, PUNE**

Solar Power Project for Sustainable Drinking Water at Thakarwadi, Tal. Ambegaon, Dist. Pune.

We had two water supply schemes to provide drinking water. One scheme had a 7.5 HP electric pump, and the other had a 5 HP electric pump. However, the Gram Panchayat faced challenges due to high electricity bills and struggled to provide water regularly. As a solution to this, through the concept of Harit Gram Yojana under Village Development Project through Bharat Forge Company we have converted both water supply projects into solar energy projects. Now, we have installed a 10.7 kw solar power system for the 7.5 HP pump and an 8 kW solar power system for the 5 HP pump. This has resulted in reduced electricity expenses for the Gram Panchayat and a consistent water supply for the village.

 **AMBEGAON, PUNE**

Telemedicine Clinic for Tribal Community at Thakarwadi, Tal. Ambegaon, Dist. Pune.

Understanding the genuine health issues and requirements of the people in Mouje Thakarwadi, we have initiated a clinic in collaboration with Door Step Health Services, Pune, since August 2022. Trained nurses provide online consultations with doctors and prescribe necessary medications based on their recommendations. By the end of January 2023, a total of 880 patients have benefited from this clinic. Nurses visit households twice a week, focusing on examining both elderly and young patients. Additionally, the clinic organizes online sessions and workshops on various health topics for the well-being of the community.

 **AMBEGOAN, PUNE**

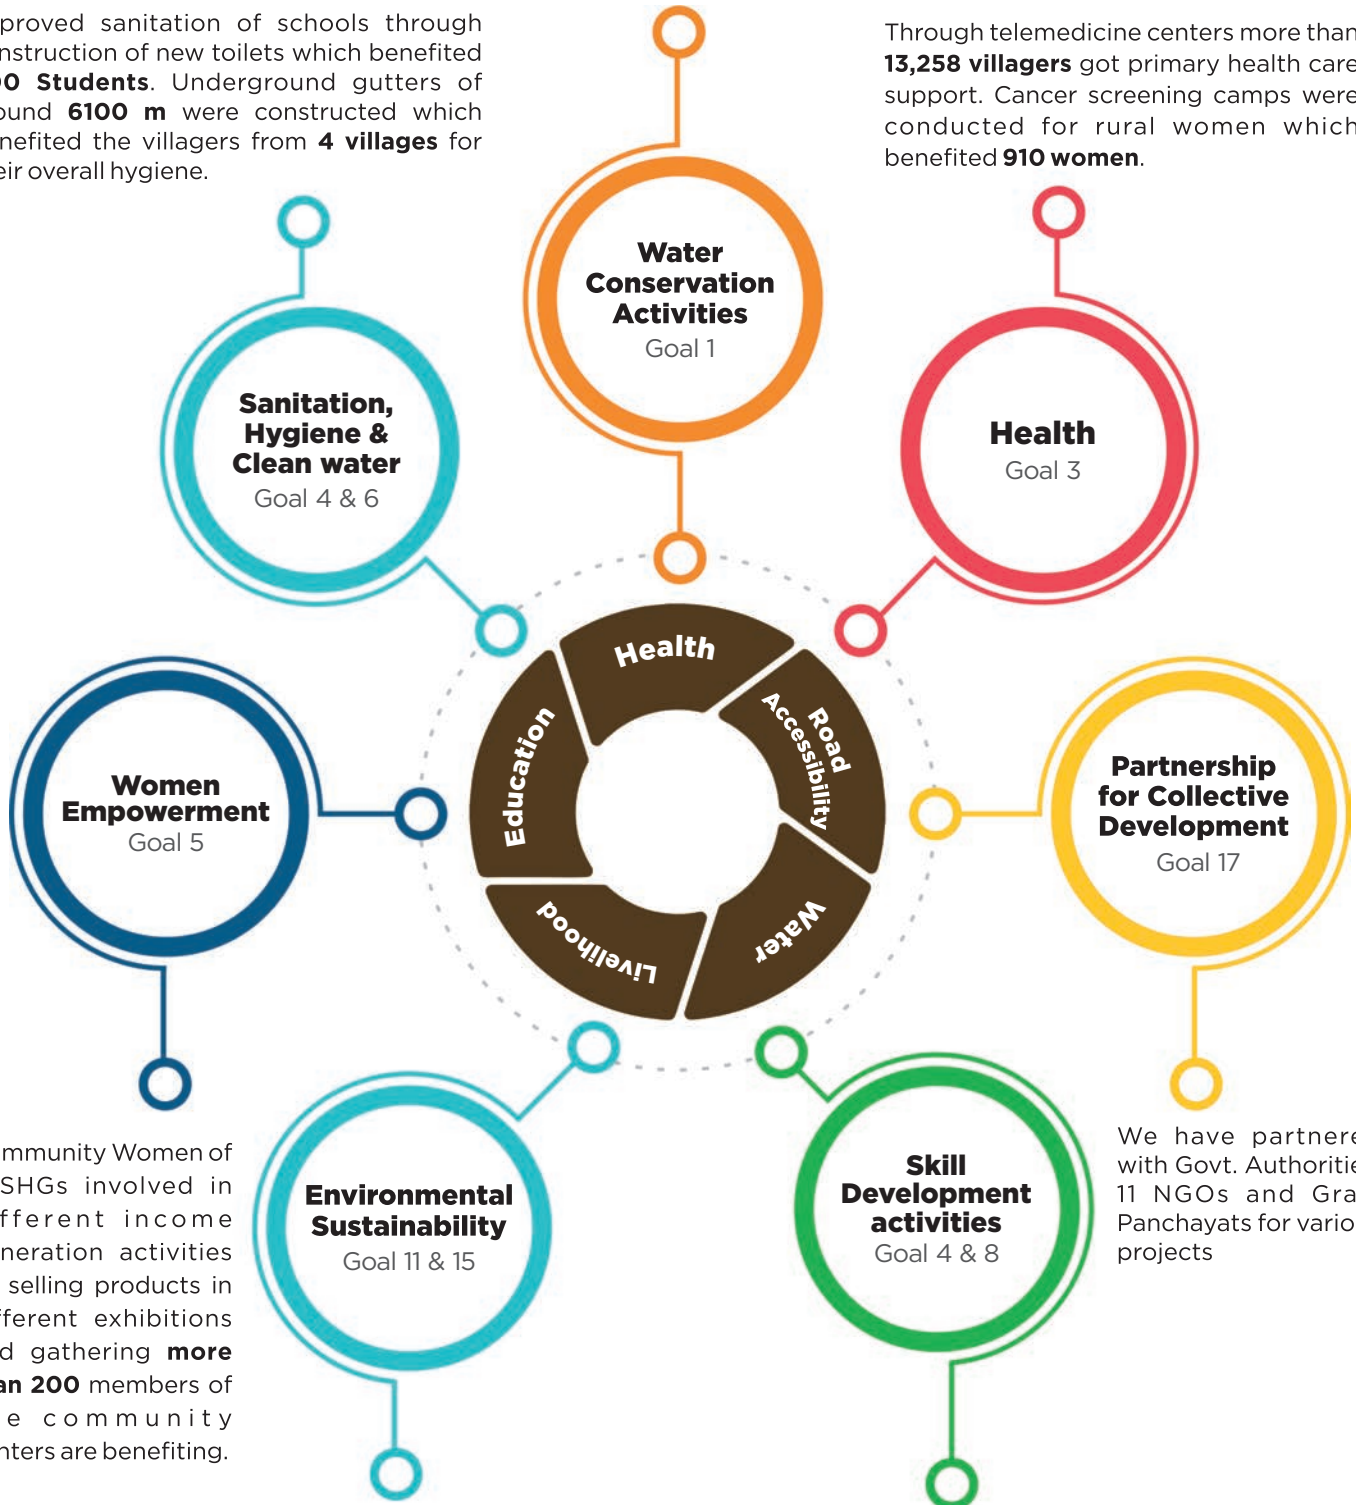

PROGRESS TRACKING SYSTEM 2022 - 23

Increase in the income of farmers since **6020 Acres** of land came under irrigation due to **327 cubic meter** of water storage capacity created.

Improved sanitation of schools through construction of new toilets which benefited **600 Students**. Underground gutters of around **6100 m** were constructed which benefited the villagers from **4 villages** for their overall hygiene.

Through telemedicine centers more than **13,258 villagers** got primary health care support. Cancer screening camps were conducted for rural women which benefited **910 women**.

Vocational training to candidates through ITI, Training of **600 farmers** through agriculture development trust, High end technology skills training to **161 engineering students** from rural background. Education to **14,000 +** underprovided students from community.

Gratitude in Words, Thankful Forever!

From last few years we are working with different stakeholders. Community people, partner organizations, volunteers in the villages, Government organizations and officials, have supported tremendously in various CSR initiatives of Bharat Forge.

Participation of Community people along with volunteers, especially women and youth, at all level was commendable. Starting from planning the initiative till its successful execution, they played an important role. CSR agenda of Bharat Forge is community centric where we strive to reach the every last person in the community. We would like to thank all of them for their active participation.

For implementing the CSR strategy, partner organizations played the vital role. Implementing the activity is as equally important as planning it. We would like to thank all the partner organizations who had relentlessly supported the CSR initiatives for its successful execution.

We closely work with government organizations in order to support the national agenda of development. The officials of the government from different levels supported the CSR initiatives of Bharat Forge. Without their support it won't be possible to contribute in the developmental journey of our country.

While working with the community we got a huge support from our employees through employee volunteerism. They participated in many of the CSR initiatives by contributing their valuable time and skills. We would like to thank all employee volunteers for their continuous support in the CSR initiatives.

Over and above We would like to thank the senior leadership from our organization who always shows their interest in the CSR initiatives. They make visits to villages, interact with villagers, and participates in many of the CSR events.

We want to thank each one who are associated with us, for the noble cause of Social Development for their continued trust, confidence, and support.

Participation in Govt. Initiatives

Har Ghar Tiranga

is a campaign under the aegis of Azadi Ka Amrit Mahotsav to encourage people to bring the Tiranga home and to hoist it to mark the 75th year of India's independence. This initiative is anchored by Ministry of Culture, GoI (Govt. of India). We participated in this campaign by organizing rallies in the ZP schools of villages, PMC (Pune Municipal Corporation Schools), Community centers, Slum communities etc. We distributed Indian National Flag to more than 15,000 people which includes School children. Community people, Employees of Bharat Forge etc.

International Yoga Day

gets celebrated every year on 21st June. We are participating in this campaign since the International Yoga Day was announced in 2015. For the awareness of Yoga, we conduct different yoga sessions and camps in the schools and communities. This year more than 7,500 students took participation in this initiative.
