**EMPOWER.
INSPIRE.
ELEVATE.**

“CHANGE THE WORLD BY BEING THE CHANGE YOU WANT TO SEE..”

We at Bharat Forge Ltd. strongly believe that the spirit behind CSR Act of 2013 is inclusive growth. Every last person in the village has to be included in the growth process of our nation. Along with Skill Development, Education & Community Development projects we decided to initiate a Rural Development project by starting work in 3 villages near Pune.

After getting insight into the processes & methodology by understanding human engineering and connect , we started working in more villages. The indicators of development were water, internal roads, livelihood, education and health. Our projects were completed in 10 villages by following all the processes like baseline surveys, meeting with villagers to understand their core needs, and designing of project to address the needs. Our Chairman had set the vision of developing 100 villages from Maharashtra. Today at any given time we simultaneously work on 20 to 25 civil projects for water and internal roads, and about 10 to 15 projects in the area of health and education. The implementation of all these projects has helped to increase the income level of the villagers and improved their quality of life.

We never claim that we adopt a village, we always try to become catalyst in the processes of development and hand it over to the villagers to take it ahead. This ensures sustainability of the projects.

In Satara we experienced that our small efforts in 29 villages have stimulated a driving force in the villages and the local governance to take the development process ahead as a movement. We also witnessed the magic of selfless work by the villagers who worked together despite of their political, economical & social differences.

Our nation requires such “movements” for the development of common people, which in turn, leads to the development of our country.

GOES HAND IN HAND

PLANET POSITIVE

AN INITIATIVE BY KALYANI GROUP

Since its inception in 1966, Bharat Forge Limited has carved out a niche for itself in the global industry. We are motivated by a desire to please our customers by going above and beyond their expectations. Simultaneously, we understand the value of supporting and growing our associates while also contributing to the society in which we work and live.

Bharat Forge has spent several years focusing on environmental and social responsibility issues. Our deep roots in the regions and society we serve, as well as our Quality, Safety, Security, and Environmental strategy, prompted us to take a proactive role in social issues. Our unwavering dedication to continuous improvement drives us to push ourselves each and every day to create new processes and products that help to achieve sustainable development goals.

ABOUT US

**LEADING
THE WAY
TOWARDS A
BRIGHTER
TOMORROW**

Mr. Baba Kalyani
Chairman & Managing Director

Mr. Pratap Pawar
CSR committee Chairman

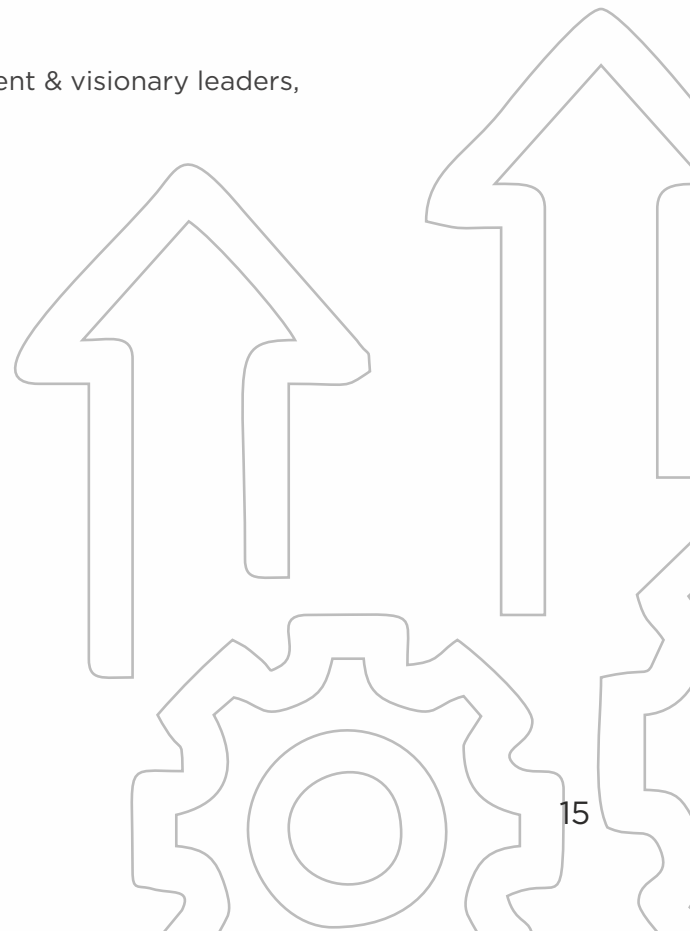

Amit Kalyani
Deputy Managing Director (DMD)

CSR BOARD COMMITTEE

The CSR Committee of Bharat Forge is led by the eminent & visionary leaders, Shri Baba Kalyani (Chairman & Managing Director), Shri Pratap Pawar (CSR Committee Chairman), Shri Amit Kalyani (Deputy Managing Director), Dr. Leena Deshpande (Head - CSR) who are guiding our development projects with their valuable experience and insights.

This prestigious committee of such knowledgeable personalities is a great advantage to Bharat Forge and has enabled us to widen our focus to reach more communities and impart growth opportunities to every last person of the target villages.

WE BELIEVE IN
HUMAN ENGINEERING

Business is not just about great products or great deals. Business is about human relationships.

Inside every problem lies an opportunity to find great solutions. It is important to address such problems with great understanding. Thus, all our initiatives begin with a heart to heart communication with the villagers and local leaders. We spend time with them to understand and find the root cause of their problems.

First step towards change is awareness. Next is acceptance. Change is a way of life and we ensure that the change or improvements we make are accepted by the concerned people, so that they are able to utilise the projects after the handover. This in turn, helps in ensuring efficiency, self-sustainability and adequate maintenance.

Just like a plant needs water, an idea needs propagation. When people benefit from our initiatives they don't just talk about it, they also discuss about it with other people and communities. This gives us more opportunities to undertake projects in different villages for the benefit of more people.

Our development projects are designed to meet the needs of the current times. For instance, underprivileged girls from our target villages are educated in emerging topics such as Artificial Intelligence, Internet of Things (IoT), and much more. Along with capacity building of our partners in the development process, we also focus on making the local leaders stronger. We train them in leadership skills, communication and problem solving. This ensures that our villages become more independent, informed and self-reliant.

Co-relation between man and machine has enhanced. Tools such as strategies, planning and budgets are very helpful for streamlining work schedules, however '**SCIENCE OF UNDERSTANDING**' makes a big difference.

At Bharat Forge, we call it **Human Engineering**, which accounts for the strengths and weaknesses of humans during the design of interactive products to ensure efficiency and safety by reducing the risk of user error.

A wide-angle photograph of a rural landscape. A dirt road winds through the scene, with several people walking along it. In the background, there are several small houses with thatched roofs, surrounded by lush green trees and vegetation. The sky is clear and blue. The overall scene is bright and sunny.

**FOCUSING ON
THE JOURNEY**

**NOT
ON THE
DESTINATION**

43 years ago,

Bharat Forge initiated a movement towards the upliftment of community, women and children.

It was a movement led not with marches, but simple heart-to heart conversations.

Through all these years, we kept widening our focus and reached out to more and more people. We stood beside them, guiding them through change.

And after four decades of determined, focused and result-oriented efforts, we touched the lives of millions.

Even though the CSR Act came into being in 2013, Bharat Forge has been shouldering the responsibility of social contributions from year 1978 when we set up two community centers for the socio-economic development of women. Furthermore, we ensure active compliance to all CSR legislations and requirements under all circumstances.

As a corporate, this belief to serve the community continues to grow stronger with every goal we achieve.

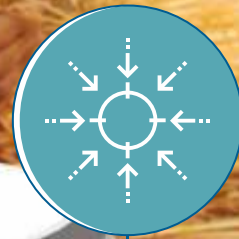

Outlining the requirement

We go through a detailed study - geographical, climatic & social aspects, so as to map problems & take action towards change

Access the need

Understanding the actual problem is the most important step

Set a goal

One has to know where one wants to reach. We map annual goals and initiate groundwork.

WE HAVE
CHOSEN OUR PATH

AND WE ARE HAPPY
TO MAKE A

DIFFERENCE

Relevant dialogue

Pre-project conversations with beneficiaries and local influencers

Begin the groundwork

Start implementing the project through a cross functional team

Bring sustenance

To let the change remain, we train beneficiaries & local leaders for efficient usage.

Project handover

An official handover for further use & maintenance

A movement led by Five Key

VILLAGE DEVELOPMENT

OUR DREAM TO NURTURE 100 VILLAGES OF MAHARASHTRA

The ability to satisfy a destitute's needs is the greatest karma of all!

Deriving inspiration from this humble thought, Bharat Forge launched its Flagship Program which aims at developing and fulfilling the basic human needs of 100 marginalized villages of Maharashtra and works towards uplifting each and every member of the rural communities through a sustainable development model.

This development program runs multiple projects focusing on various domains such as,

- Provision of Clean Drinking Water
- Improving Sanitation
- Enhancing Yields of Farmers
- Providing Livelihood Opportunities
- Promoting self-reliance
- Improving Health conditions & Nutrition
- Promoting Education
- Awareness Campaigns

The program also trains the local leaders and connected partners to take over the projects and further its positive impact on the overall living standards of rural people. All in all, Bharat Forge is strengthening the fundamental building blocks of the nation, our villages!

Bharat Forge sets a

To address the much-needed primary healthcare in remote regions which had very erratic to no access to medical infrastructure and resources, Bharat Forge set up five software-enabled telemedicine clinics. These clinics were each equipped with a doctor, a nurse, & one attendant and cumulatively catered to over 8600+ rural patients in the past year. These telemedicine clinics also worked as sources of data for further medical research.

COMMUNITY DEVELOPMENT

WHEN THE COMMUNITY PROSPERS, EVERY INDIVIDUAL GROWS!

Bharat Forge believes that empowering women is the key to building and nurturing the future we want. Its Community Development programme draws inspiration from this value and aims at empowering underprivileged women by providing vocational training, business enterprise support and other resources which promote entrepreneurship.

Women Empowerment Self Help Groups

Its programme also promotes self-dependency by supporting various women Self-Help groups from Hadapsar, Keshavnagar and Wadgaonsheri. Terminally, this programme has helped rural women to realize their earning potential and improve the lives of themselves and their families.

BUSINESS

Supporting Beneficiaries' Businesses

Diwali Exhibition event to develop entrepreneurship Skills of the women

Bharat Forge provided support by providing necessary infrastructure, entrepreneurship opportunities, and imparting vocational skills to various women-led businesses which produced pouches & purses, cloth bags, traditional Maharashtrian snacks like shev, chakli, chivda, etc.

EDUCATION

EDUCATION

DRIVES THE

ADVANCEMENT OF OUR

SOCIETY TOWARDS A

BRIGHTER FUTURE

At Bharat Forge, we believe that Education is the movement from darkness to light and the foundation of a better future. Hence, we developed our Education Programme which aims at imparting essential knowledge and skills to underprivileged children through group activities, knowledge sharing and so on. It involves three facets,

Pratham Pune - It provides non-formal education to children from 130 underprivileged communities.

Pradnya Vikas - Children from the Pratham communities who display promising potential are provided more specialised education in this venture.

Anubhav Shala Khelgar - This facet of the education programme is run in collaboration with Jnana Prabodhini for children from slum communities whose parents are unable to supervise them due to work commitments.

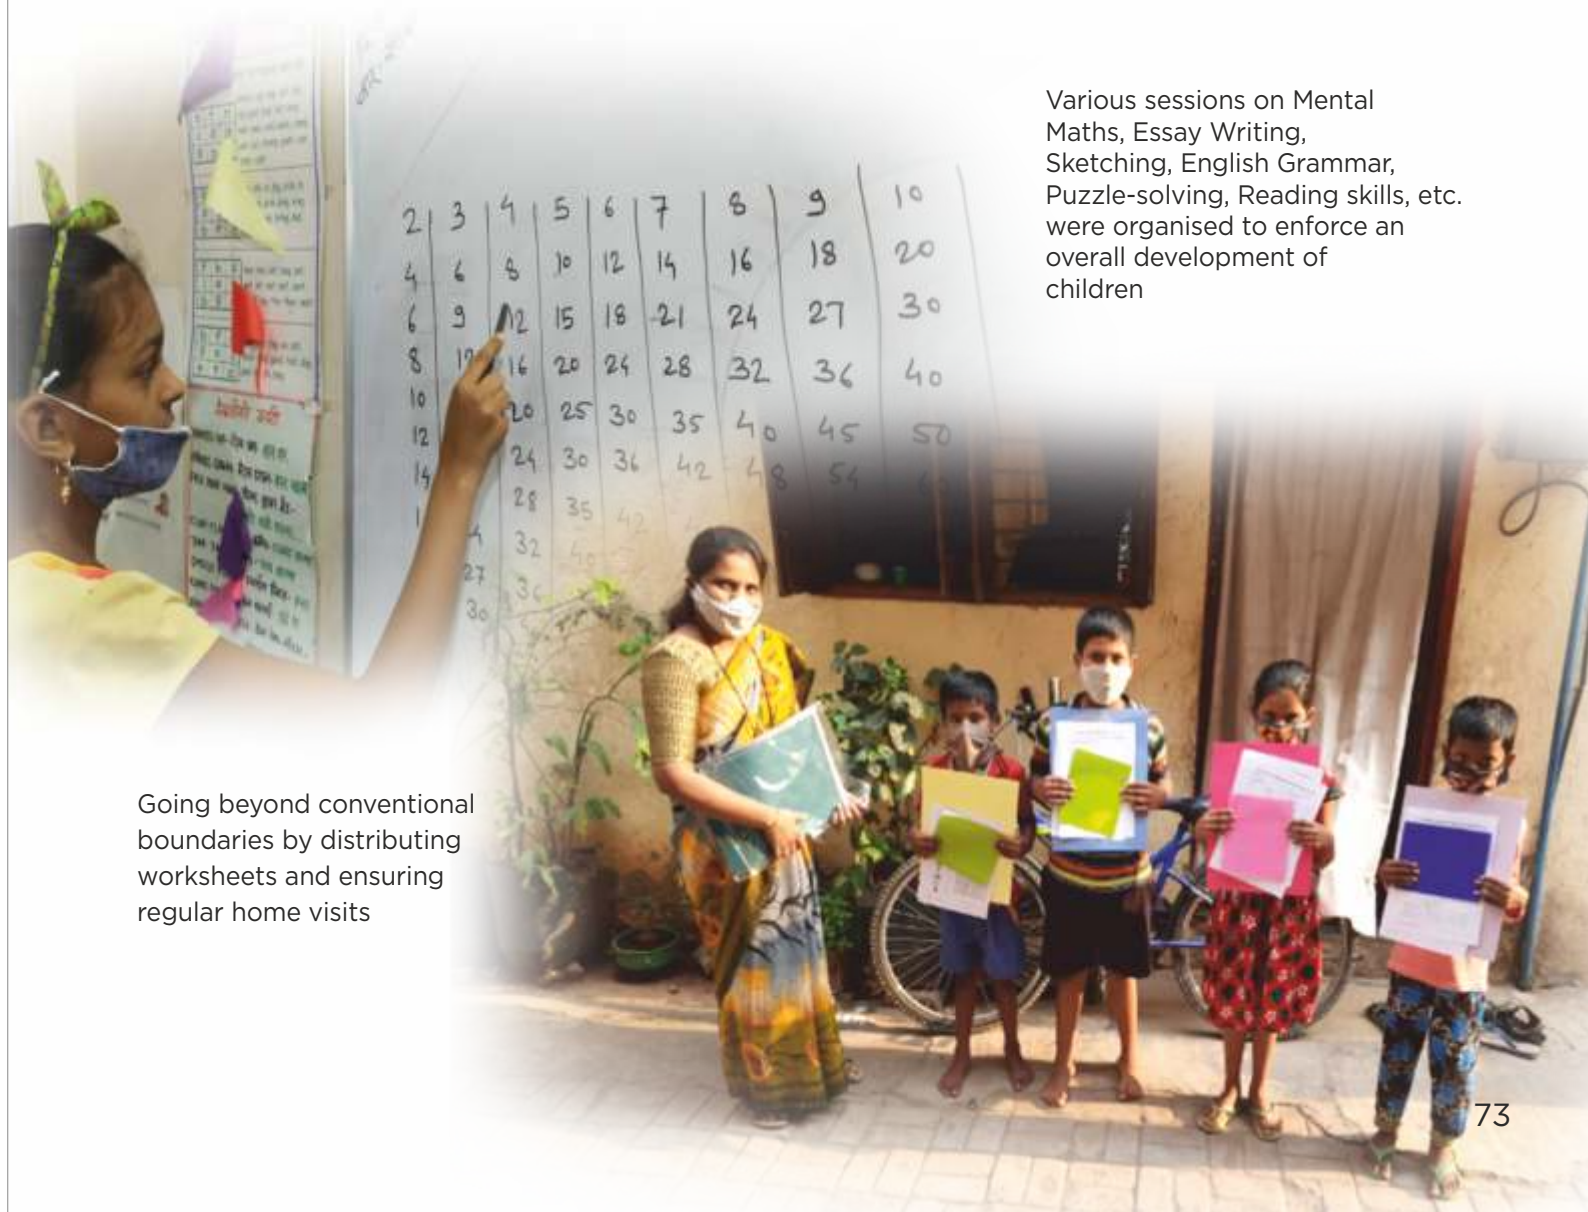

Multifaceted Learning to empower & develop underprivileged students

SCHOLASTIC DEVELOPMENT - ANUBHAV SHALA

Various sessions on Mental Maths, Essay Writing, Sketching, English Grammar, Puzzle-solving, Reading skills, etc. were organised to enforce an overall development of children

Going beyond conventional boundaries by distributing worksheets and ensuring regular home visits

SKILL DEVELOPMENT

The most powerful tool for **EMPOWERMENT & SELF - RELIANCE** is **SKILL DEVELOPMENT**

Skill development hones the potential of eradicating widespread employment.

With this view, Bharat Forge has partnered with 4 Industrial Training Institutes (ITI) to run skill development programmes for the youth of various underprivileged communities.

This programme equips individuals, primarily rural youth, with various vocational skills which enhances their employability.

Cumulatively, this programme has imparted career-altering skills to over three thousand students.

COURSE COMPLETION OF SECOND BATCH- RF AND MICROWAVE TECHNOLOGY PROGRAM AT KCTI-PUNE

Bharat forge limited in 2020 has started the second batch for specialist course of “Radio Frequency and Microwave Technology” for engineering Graduates and post-graduate students. BFL has signed an MoU with SGGSIET Nanded. with the Aim to impart specialized skills in Signal Processing and Embedded System and an objective of promoting employment and enhancing vocational skills of engineering students. Also, this initiative has embarked upon one mission to bridge the gap between industry and institution.

14 trainee engineers have successfully completed the training program during year 2020-21 and got the job opportunities in other companies. The certificate distribution ceremony for second batch of RF Training program was held on 11th Sept 2021 at KCTI-Pune. Certificate were handed over to all the trainees by Dr Rajkumar Singh, Dr Leena Deshpande, Dr Y V Joshi and Dr Manesh Kokare in presence of other dignitaries from Defence R&D-KCTI.

Bharat Forge has collaborated with Vidya Pratishthan, Baramati for setting up the Centre of Excellence Lab for providing skill training in the area of Artificial Intelligence, IoT, Machine learning, etc. with the objective to impart the new age technological skills to the rural youth. the program also aims at maximum participation from girl students to ensure women empowerment and employability enhancement.

ITI KHED

Skill development of rural youth through vocational training in ITI to enhance their employability

Training of 20 farmers from Jalgaon, Satara on production & process of Milk & Milk Products to develop entrepreneurship skills in farmers. Through this program they were also trained for management of Biogas plant project, Murghas Project and process etc at Agriculture Development Trust, Center of excellence, Dairy, Baramati.

SPORTS LAKSHYA

BFL sports initiatives

IDENTIFY

NURTURE

SUPPORT

sports talents

from all across the country

Overall development remains at the heart of Bharat Forge's values. Furthermore, we believe that sports help in inculcating various essential skills required to lead an ethical and socially-just life and facilitates the overall development of an individual. We aim imparting this positive impact of sports to as many lives as possible.

However, in the long run, several sportspersons are unable to sustain their participation in sports due to inaccessibility to specialized guidance and lack of resources. Bharat Forge aims to diminish this hindrance by supporting and mentoring underprivileged sports talents from across the country.

EMPLOYEE VOLUNTEERISM

SERVICE **for others is the road to true** **HAPPINESS**

Every employee at Bharat Forge feels that there is no greater joy or reward than making a fundamental difference in someone's life. Furthermore, they take immense pride in contributing to the growth of our society. This thoughtfulness combined with the service-oriented values of Bharat Forge enables its employees to extensively engage in projects which contribute towards a positive development of our society.

Bharat Forge's employees believe in environmental sensitivity and extensively contribute to efforts towards environmental conservation. As an extension to this value, they partnered with the child beneficiaries of Bharat Forge's programs, **Pradnya Vikas Program & Pratham Pune Education Foundation**, to spearhead various initiatives.

The employee-led initiative collectively planted around **140 trees** across various polluted regions in and around Pune to counteract global warming.

This righteous initiative also witnessed enthusiastic participation from the youth members of other programs

- Pradnya Vikas Program - 40 students
- Pratham Pune Education Foundation- 150 students

Bharat Forge fosters the values of spreading happiness through sharing. Hence, each year its employees voluntarily partner with multiple NGOs to donate groceries and other essentials to the needy. The partner NGOs are,

- **Shirdi Sai Baba Home for the Aged Blind Women** (serving and caring for visually impaired aged women for the last 50 years)
- **Savali Association** (serving & caring for mentally challenged children with Cerebral Palsy)
- **Maher** (provides shelter and support to destitute women and orphaned children since 1997)

Mahila Seva Mandal (works towards rehabilitation and provision of shelter to destitute women since 1940)

EMPLOYEES IN ACTION

Department Representatives visited NGOs to distribute the necessary resources

Sevadham Vruddhashram
(serving senior citizens since 1995)

Bharat Forge aims at lowering the impact of improperly disposed waste on the environment and on the health of our society. Hence, its employees have initiated a comprehensive waste management programme to enable effective management of household waste.

Through this programme, around **65 composting planters were set up in Keshav Nagar** and several women were trained in different waste management techniques. As a result of this initiative, each day, around **1kg of Kitchen waste** in each planter is turned into useful compost.

COVID-19

Bharat Forge significantly contributed to the community during the COVID-19 outbreak in 2020 & 2021. We undertook various initiatives for increasing awareness among our target communities about protection of self from the corona virus through practices like social distancing, proper sanitation & hygiene and maintaining physical & mental health.

AWARDS & RECOGNITION

“ The CSR Journal Excellence Award 2021”

Bharat Forge was declared the second runner-up under category of “Agriculture & Rural Development”

This award was conferred by Shri. Bhagat Singh Koshyari (Hon’ble Governor of Maharashtra), in the presence of Shri Nitin Gadkari (Hon’ble Union Cabinet Minister of Road, Transport and Highways). The award aims to honour innovative and best practices in the sphere of Corporate Social Responsibility in India.

VIRTUAL SESSIONS WITH PARTNER NGOs

Bharat Forge conducts an annual meeting with its partner NGOs through virtual mode to discuss the scope of their CSR and community development activities. The meeting aimed at understanding & comprehending the developments done in the 100 target villages by the partner NGOs and the CSR team of Bharat Forge. Furthermore, the CMD, Mr. Baba Kalyani, applauded the efforts of all the members contributing towards the CSR projects of Bharat Forge and guided them with his vast experience on how to multiply the positive impact of their initiatives on the society.

THE WAY AHEAD...

At Bharat Forge, we believe that change & development arises only out of persistent efforts. Hence, to deepen our positive influence on the society, we aim at further developing our 100 target villages through our radical projects. In the short term, we aim at fostering environmental sustainability through our projects on **Tree Plantation, Waste Management, Solar Lamps** and so on. We also strongly believe in strengthening our farmers, and thus, plan on **setting up an Agriculture Development Trust** which would equip farmers with new & optimized agricultural techniques. Inculcating high-end technical skills in our youth is a prerequisite to securing the future of our country. Therefore, **we aim at skill development of our youth through AI & IoT labs**. Furthermore, to enhance equity in our society, we aim at focusing on **women empowerment through our inclusion project for female engineering students from rural regions in collaboration with Vidya Pratishthan**. With these objectives in mind, we strive to make a more profound & meaningful impact on the society.

ENVIRONMENTAL CONSERVATION

Environmental Sustainability is perceived as a soulful duty by Bharat Forge, rather than just a box to tick. Our values focus on the collective strengthening of our society and Mother Earth. This culture of fostering environmental conservation has driven several impactful initiatives.

Over the **past 5 years**, Bharat Forge has engaged in the development and protection of 5 gardens of the Pune Cantonment Board and reforested large areas of barren land by planting over 400 trees.

SUCCESS STORIES

Work Done By BFL Under The Village Development Project

ANALYSIS OF THE PROBLEM -

The villages of Satara District have been affected by drought for the last 15 years. Agriculture was primarily rain-fed & for the remaining six months, the village was heavily dependent on a water body located 5 km away. Most villagers migrated to cities in search of livelihoods.

DRIVING TOWARDS A SOLUTION -

With inputs from Bharat Forge, the water body was de-silted. This had multiple benefits. There was a marked increase in water levels of the village's wells. The silt removed from the water body was then laid on the rocky fields turning them into fertile lands. Availability of water coupled with fertile silt led to an increase in irrigated land area, encouraged the production of cash crops like ginger, improved crop productivity & reduced the costs of fertilizers. This led to a guaranteed and systematic increase in the villagers' income, helping them sustain for the next seven to eight years. This also reduced up to 10% in migration of the local population. The village now grows 25000 tons of sugarcane. This growth is substantial and exponential as they started without a single sugarcane plant and are now exporting it. This has helped to increase their income level by more than 6% and has helped in improving their quality of life.

ANALYSIS OF THE PROBLEM -

Mandanwadi in Baramati depended heavily on government water tankers for their needs. Acute water shortage affected their ability to undertake Agriculture throughout the year.

DRIVING TOWARDS A SOLUTION -

Bharat Forge undertook the colossal task of widening & deepening a nearby lake, effectively increasing the 3,00,000 CuM water storage capacity. The lake today irrigates 546 hectares of agricultural land, benefitting more than 1000 farmers from four neighboring villages apart from Madanwadi itself. The silt was utilized for the construction of 2.5 km of internal roads. All the nearby wells are filled, and the village has completely lost its water tankers completely.

ANALYSIS OF THE PROBLEM -

Kalewadi is a drought-prone area from Purandar Taluka facing a drinking water crisis. Agriculture faced difficulties due to the same. Dependence on water tankers created a hostile and uncertain situation for the villagers.

DRIVING TOWARDS A SOLUTION -

The water was arranged to the doorstep through a pipeline under the Purandar Upasa Sinchan scheme. Water is now available to them throughout the year. Changes in the cropping pattern resulted in better yield and financial capability. The farmers have started processing units of fruits. The tree plantation along the roads' sides changed the village's face. After encouraging a self-sustained livelihood, BFL could extract their dependency from the village.

PROGRESS TRACKING SYSTEM

Sanitation, Hygiene & Clean Water

Goal 4 & 6

Improved sanitation of schools through construction of new toilets which benefited up to 580 students. Provided access to clean drinking water by setting up new water filter plants.

Soil Moisture Conservation Activities

Goal 1

Threefold increase in income of farmers due to 53,000 cubic metres of water storage and 230.74 acres of Land Levelling

Women Empowerment

Goal 5

Community women of 5 SHG involved in different income generation activities by selling products in different exhibitions and gatherings.

Skill Development Activities

Goal 4 & 8

Vocational training to candidates through ITI, training to farmers through Agriculture Development Trust, training to engineering students especially from rural area through Vidya Pratishthan. Education to 10,000+ under privileged students from community.

Health

Education

Road Accessibility

Livelihood

Water

Partnerships for collective development

Goal 17

We have partnered with Govt Authorities, 8 NGOs and Gram Panchayat for various projects

2021 - 22

GALLERY 2021 - 22

Padma Bhushan Babasaheb Kalyani, CMD-Bharat Forge, has received the prestigious Dr. Narendra Dabholkar Social Award from the Satara Nagar Parishad in recognition of his contribution to the development of villages in Satara District.
