## HEAT RESISTIVE SEAT

KEEPING IT COOL IN THE HOT INDIAN SUMMER

Unique, Heat-resistant Leather

Thermal Comfort

Reflects Sunlight

### VARROC HEAT RESISTIVE SEATS FOR A COOL RIDE

One of the most common problems faced by a 2-wheeler commuter in India is the heating up of seat surface when parked in harsh sunlight. And the black colour of the seat only compounds the discomfort of the rider.

This is why, Varroc has developed a unique, heat-resistant seat that uses a black Rexine material specially equipped to absorb as little heat as possible. By reflecting sun's rays, the material provides respite from the discomfort caused due to overheated seats.

### FEATURES

**Prevents discomfort due to overheating**

**Innovative, black leather that reflects sunlight**

**Heat build-up as low as ~18°C (Premium) & ~12°C (Economy) under sunlight**

### TECHNICAL SPECIFICATIONS

**2-Wheeler seat assembly**

## HIGH COMFORT PLEATED SEAT

EXTRA CUSHION FOR BUMPY RIDES

Superior Comfort

Aesthetic Appearance

Anti-Slip Design

### VARROC PLEATED SEATS FOR SUPERIOR COMFORT

When it comes to motorbikes, the comfort of the seating assembly is paramount. Varroc Pleated Seat has been specially developed for optimum comfort. The foam layer welded with the seat cover enhances the cushion and the pleat design adds to the aesthetic appeal and anti-skid feature. It makes for a smooth, stylish ride.

### FEATURES

**Enhances comfort**

**Soft touch**

**3 Layered pleats of PVC + PU foam**

### TECHNICAL SPECIFICATIONS
