ONE-OF-A-KIND VARROC SINGLE SPLIT SEAT

Seat design is pivotal to the overall appearance of a bike or a scooter. Single seats and split seats are the two most common designs available in the market. While a single seat is made using a single mould, a split seat is made by merging two separate moulds. Now, Varroc has developed a third type of seat – the Single Split Seat. An ingenious aesthetic innovation, this assembly is a singular mould made to look like a split design through a seamless contour that separates the rider and pillion seating areas.

Features

Split seat appearance in a single seat

High-frequency welded cover

In-built seat lock on the side

Split Design Innovation

Elevated Aesthetics

Typical Application Conditions

2-Wheeler Seat Assembly

PERFORM@CHANGE

L-4, MIDC Industrial Area, Waluj, Aurangabad – 431 136,
